

Copying and Pasting Elements in Build Mode

Follow these steps to copy and paste elements within the scene:

Copying Elements

1. Select Elements

- Click on the desired elements with the **left mouse button** to select them. You can:
 - Click individual elements one by one.
 - Drag the mouse to select all elements within an area.

2. Copy Selected Elements

- After selecting, double right-click and choose "**Copy**" from the context menu.
 - Alternatively, use the keyboard shortcuts:
 - **Ctrl + C** (Windows).
 - **Cmd + C** (Mac).
-

Pasting Elements

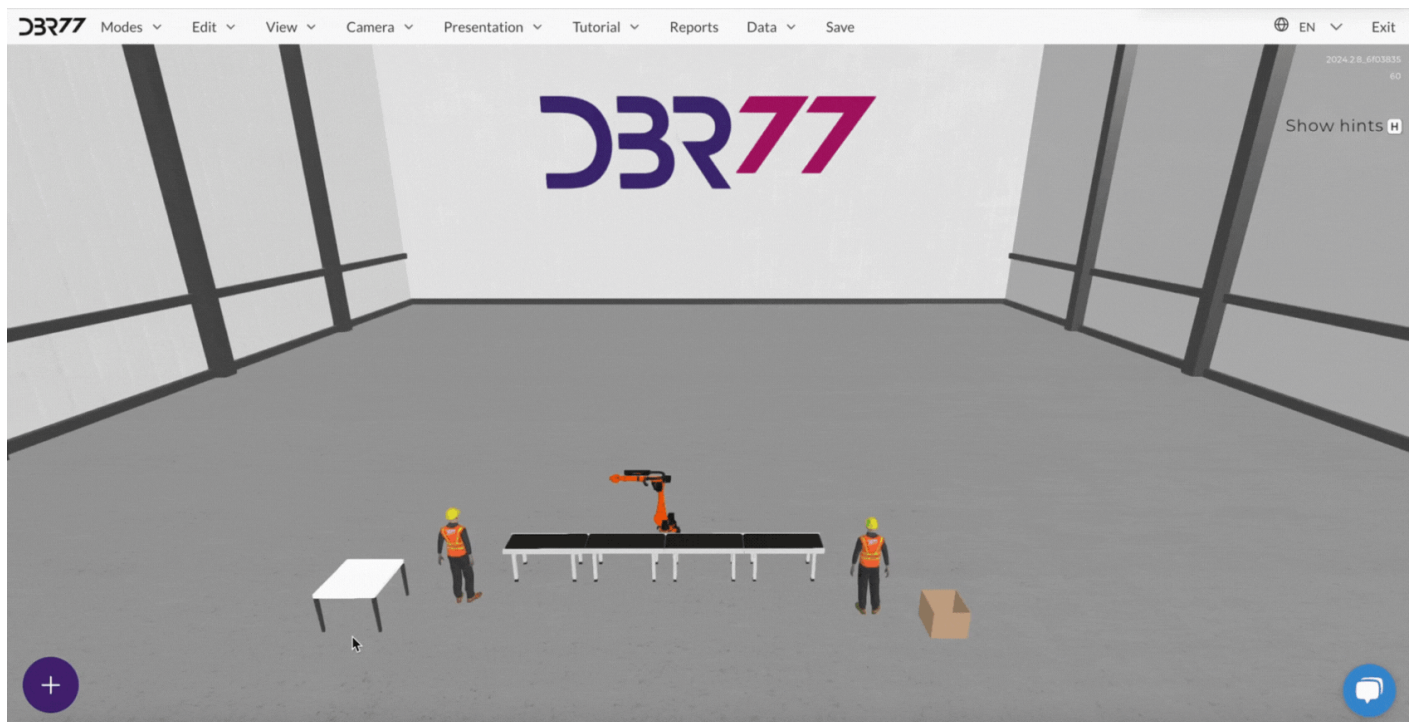

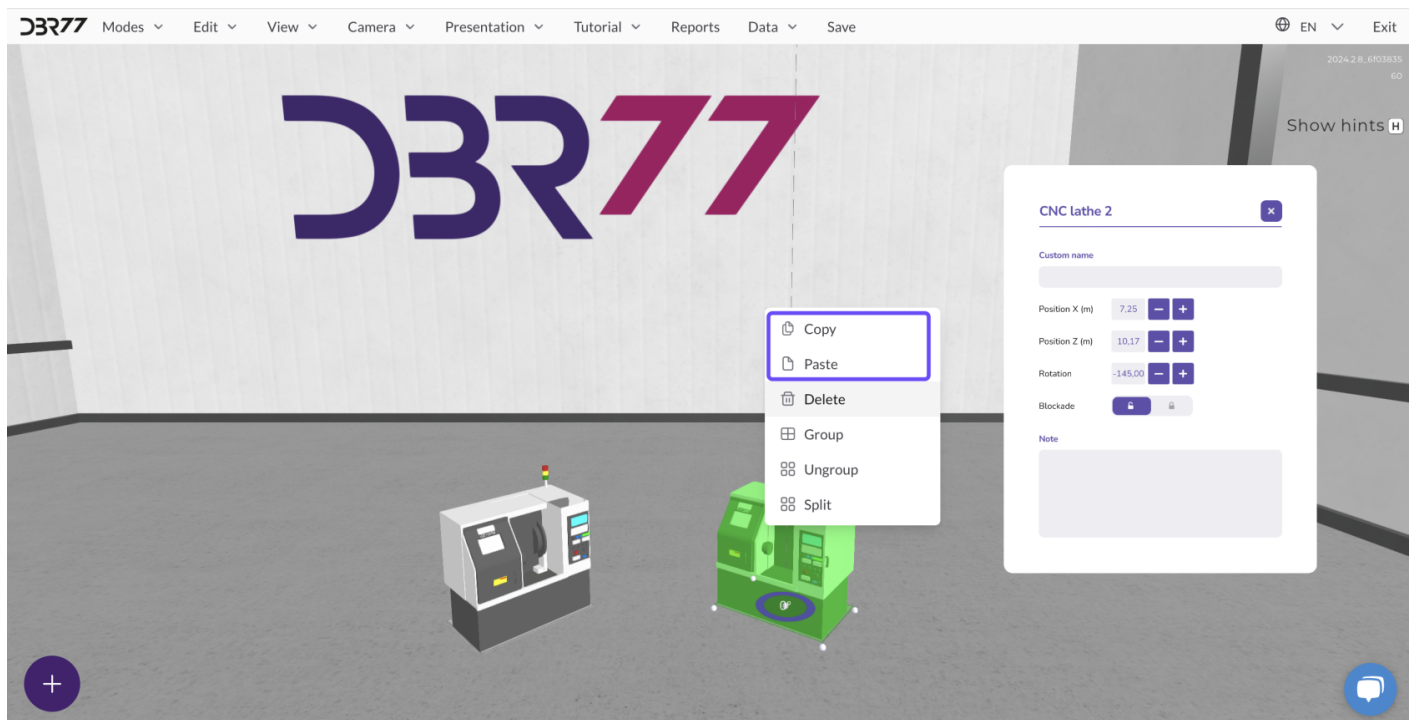

1. Insert Copied Elements

- To paste, double right-click and choose "**Paste**" from the context menu. The elements will be placed where the mouse pointer is positioned.
- Alternatively, use the shortcuts:
 - **Ctrl + V** (Windows).
 - **Cmd + V** (Mac).

2. Positioning the Elements

- Move the mouse pointer to the desired location before pasting to control the placement of the elements.

These steps streamline the duplication and arrangement of objects, ensuring efficiency and accuracy in scene creation.
