

# Presentation

The "**Presentation**" tab in the 3D Studio is designed for playing presentations prepared in Presentation Mode. This tab offers two simple options: Start and Stop, which allow you to play or pause the finalized presentations. Detailed instructions for editing presentations and setting camera positions can be found in the Presentation Mode tab.

## Options in the Presentation Tab

- **Start:** Click the "Start" button to begin the presentation. It will play through all the previously configured camera angles and sequences.
- **Stop:** Click the "Stop" button to pause the presentation. The presentation will stop, and you will return to the previous working mode.

## Advantages of the Presentation Tab

- **Quick Access:** The "Presentation" tab enables easy and fast playback of pre-prepared presentations.
- **Simple Operation:** Two intuitive options (Start and Stop) allow seamless control of the presentation without additional configuration.

- **Professional Display:** Prepared presentations enable you to showcase your project effectively and professionally.

The "**Presentation**" tab is a simple yet highly useful tool in the 3D Studio, allowing for quick playback and pausing of completed presentations.
